

Hello, My Name is Louise Vigna and I have been a resident on the West-End of Alameda for over 50 years. We have seen Webster street change over the years, some for the better, some for the worse and lately we have noticed the multitude of beauty salons that have opened. This is particularly concerning because currently over a 3 block span from Central to Pacific Avenue we have ~~10~~ 11 beauty salons & 2 barbershops. We have been informed that 2 new salons wish to open- one of them having 17 stations and the other six station. Webster Street has hard enough time supporting the salons that are currently there. There is not enough variety of business to support the current number of salons we do have much less adding two more salons. We need more of a variety of businesses on Webster Street such as a baby store, clothing stores, gift shops, craft stores to support the restaurants and salons we have. These current requests to open yet **ANOTHER TWO SALONS** seem repetitive and unnecessary. Some of the current salons put large, tacky signs that cheapen the appearance of the street as it is. I recommend the city take a good hard look at Webster Street and reevaluate the kinds of businesses that wish to set up shop there. The former president of WABA was also against putting more beauty shops in this area as well. Please consider this request and allow other businesses other than beauty salons to open businesses on Webster Street.

Thank you!

Petition to Oppose Incoming Beauty Salons on Webster Street

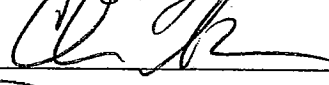

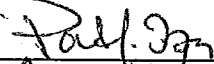

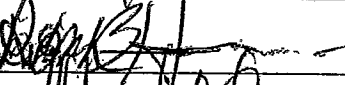

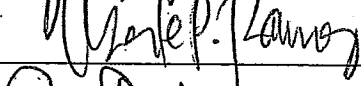

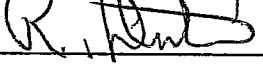

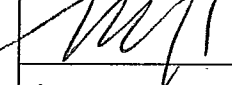

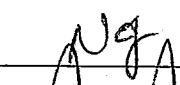

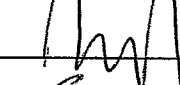

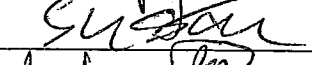

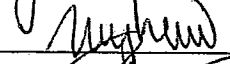

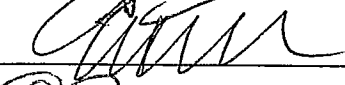

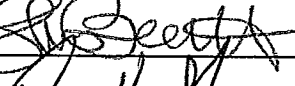

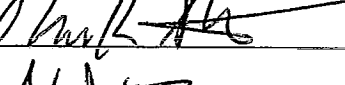

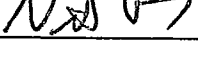

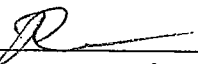

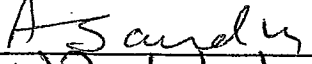

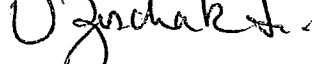

We, the signed merchants of the West Alameda Business Association, do hereby oppose the addition of two new beauty salons at 1509 and 1533 Webster Street. Our business area is already inundated with beauty salons, nail salons and barber shops. We wish for customers to patronize the current beauty salons we have on Webster Street and add new and different types of businesses to our association to make it an appealing shopping district for Alameda residents.
